The standard on human cell line authentication, ANSI/ATCC ASN-0002-2011, can be purchased at the ANSI eStore: <http://webstore.ansi.org/>

A database of human cell line STR profiles, to be maintained by NCBI, is still in development.

Currently, databases of human cell line STR profiles can be accessed from cell banks at:
<http://www.atcc.org/CulturesandProducts/CellBiology/STRProfileDatabase/tabid/174/Default.aspx>
<http://www.dsmz.de/services/services-human-and-animal-cell-lines/online-str-analysis.html>
