EXTENDED!!

CALL FOR RECOMMENDATIONS FOR STANDARD DEVELOPMENT

The call for recommendations for standard development has been extended until September 30, 2007. This call is for all members of the CSP - to recommend specific standard development areas that represent significant needs of the stakeholder community.

Several excellent proposals have already been submitted, but we want to make sure the stakeholder community has full opportunity for input. Summer months are prime vacation time and we don't want to have missed any valuable ideas!

Joseph B. Perrone, Director, ATCC SDO

Attached to this email is an SD Recommendation (SDR) form that you may use to submit your recommendations.

SDO/CSP Update:

Handbooks and Updated Materials: ATCC Standards Development Organization Handbooks and packets of updated materials were sent to CSP members during the month of August. You should have received one or the other, *but not both*. Please let Trish Hugunin know if you have not received your handbook or updated materials.

Application for accreditation as an American National Standards Institute (ANSI) Standards Developing Organization (SDO): The ATCC SDO ANSI-accreditation application is currently in final review cycle by ANSI.

Q & A: None for August

Please forward questions that you might have concerning the SDO and/or the CSP that might be answered for the entire membership to thugunin@atcc.org.
